Education

Indian Institute of Information Technology, Dharwad, India

BTech Data Science and Artificial Intelligence

expected year of graduation - 2026

2022 - present

CGPA: 9.65

Projects & Experience

Choroid Segmentation

Jan '25 - Present

- Segmentation of choroidal layers namely sattler's, haller's layer, capillaries
- Using Unet with transformer architecture for segmentation

Parameter Estimation for Intramedullary Nailing of Femur

Sept '24 - Present

- To estimate parameters for Indian population
- Using models like Yolo to detect curves and edges

Analysis of Graphs on Hadoop Cluster with Spark

Jan '24 - May '24

- Built a hadoop cluster on linux using three computers.
- Analyzed social network graphs with popular algorithms found in spark like PageRanking, Number of triangles, WCC, SCC, etc.

Relevant Courses Completed in Institute

Machine Learning, Deep Speech Processing, Algorithms and Artificial Intelligence

Skills

Programming Languages and Frameworks : C, C++, Python, Java

Web Development : HTML, CSS, JavaScript

App Development (with Flutter) : API Integration and Firebase Connection

Tools: Git, Android Studio, MySQL, Hadoop, Spark

Operating Systems : Windows, Linux

Machine Learning : Machine Learning, Deep Learning, CNN, Image processing, Transformers, LLMs, Deep Speech Processing - ASR, TTS, SSL, Speaker Recognition, PyTorch, GAN

Extra co-curricular Activities

Limelight - Drama Club

25 Jan '24- present

Languages

English, Hindi, Marathi
